

A group of four women are shown from the chest up, smiling and hugging each other. They are wearing bikinis: a black one, a patterned one, and a white one with ruffles. The background is bright and out of focus, suggesting an outdoor setting like a beach. The overall mood is joyful and carefree.

LASER HAIR REMOVAL

For Everyone

PrestigeHR

NEXT-GENERATION LASER HAIR REMOVAL *For Everyone*

ROBUST. RELIABLE. ERGONOMIC.

The *PrestigeHR* offers advanced technology for practices wanting to provide top-tier laser hair removal services without breaking their bank.

FAST. DURABLE. COMFORTABLE.

The world's most trusted hair removal diode has been upgraded for better speed, durability, and comfort.

"I have used many laser machines from different companies, but I have to say the **PrestigeHR** is the best I have used. I have been using it for the last few months for hair removal in skin types IV and V and am extremely satisfied with the results. Complete hair removal is achieved within 3-4 sessions in most cases, even on fine facial hair. My patients are very happy with the painless and effective treatment. I will be buying another machine soon."

- Dr. S. Mainali

LASER HAIR REMOVAL FOR ALL SKIN TYPES

FASTER. LIGHTER. COLDER. EASIER.

- ✓ Accelerate treatments with 10-hertz, even at high fluence or long pulses
- ✓ Reduce fatigue with a lighter handpiece
- ✓ Enhance patient comfort with continuous cooling down to -2°C
- ✓ Simplify operations with 10.4" intuitive touch-screen controls

GOLD INTELLIGENCE: We use the very highest-quality, gold-wrapped German diodes, paired with STM32 intelligent control system.

SMART PERFORMANCE: Our smart handpiece features real-time diode monitoring for ultimate performance.

COOL TECH: Proprietary cooling technology eliminates condensation on diodes and the handpiece.

POWER PLAY: Medical-grade Japanese power supply provides instant peak power, consistency, and durability.

UNDER PRESSURE: Our Triplex water pump is made in the USA and handles higher pressure (100psi) to provide a longer lifespan.

SPECIFICATIONS

- ✓ Laser: 808nm Diode
- ✓ Frequency: 1 - 10 Hz
- ✓ Fluence: Up to 120j/cm²
- ✓ Pulse durations: 5 - 400 ms
- ✓ Spot Sizes: 192mm² (16mm x 12mm)
- ✓ Indication: Permanent hair reduction on ALL skin types (I - VI)
